

1st INCF Congress of Neuroinformatics

Databasing and Modeling the Brain

Stockholm, Sweden - September 7-9, 2008

Workshop topics:

- Future hardware challenges to scientific computing
- Neurogenomics meets bioinformatics meets neuroinformatics in database research
- Extraction of structural and functional information from brain images
- Challenges and benefits of multichannel electrophysiology

Chair of the scientific committee:
Rodney Douglas

Keynote speakers include:
Mark Ellisman, Mitsuo Kawato,
Mary Kennedy & David Van Essen

Program committee:

Jan Bjaalie, Erik De Schutter, Rodney Douglas (Chair), Sten Grillner
Anders Lansner Ulla Ruotsalainen, Shiro Usui, Robert Williams
David Willshaw, Andrzej Wrobel

Conference management:
Pontus Holm
